So you've been assigned to manage a new weapon system, eh?

- ❑ **Where do you start?**
 - **Team Formation & Development**
 - **Research & Information**

- ❑ **What do you have to consider?**
 - **Time Frame**
 - **Performance**
 - **Quality**
 - **Documentation**

“From the catalogers’ point of view, this Bradley is just 14,000 Parts rolling in close formation.”

Team Formation

❑ Each member currently -

- Brings a different expertise to the group
- Has different responsibilities

- ❖ Research & Development

- ❖ Testing

- ❖ Acquisition

- ❖ Production

- ❖ Deployment

- ❖ Maintenance

- ❖ Disposal

DLA SHOULD BE A PART OF YOUR TEAM

DLIS provides different types of support in all of these areas.

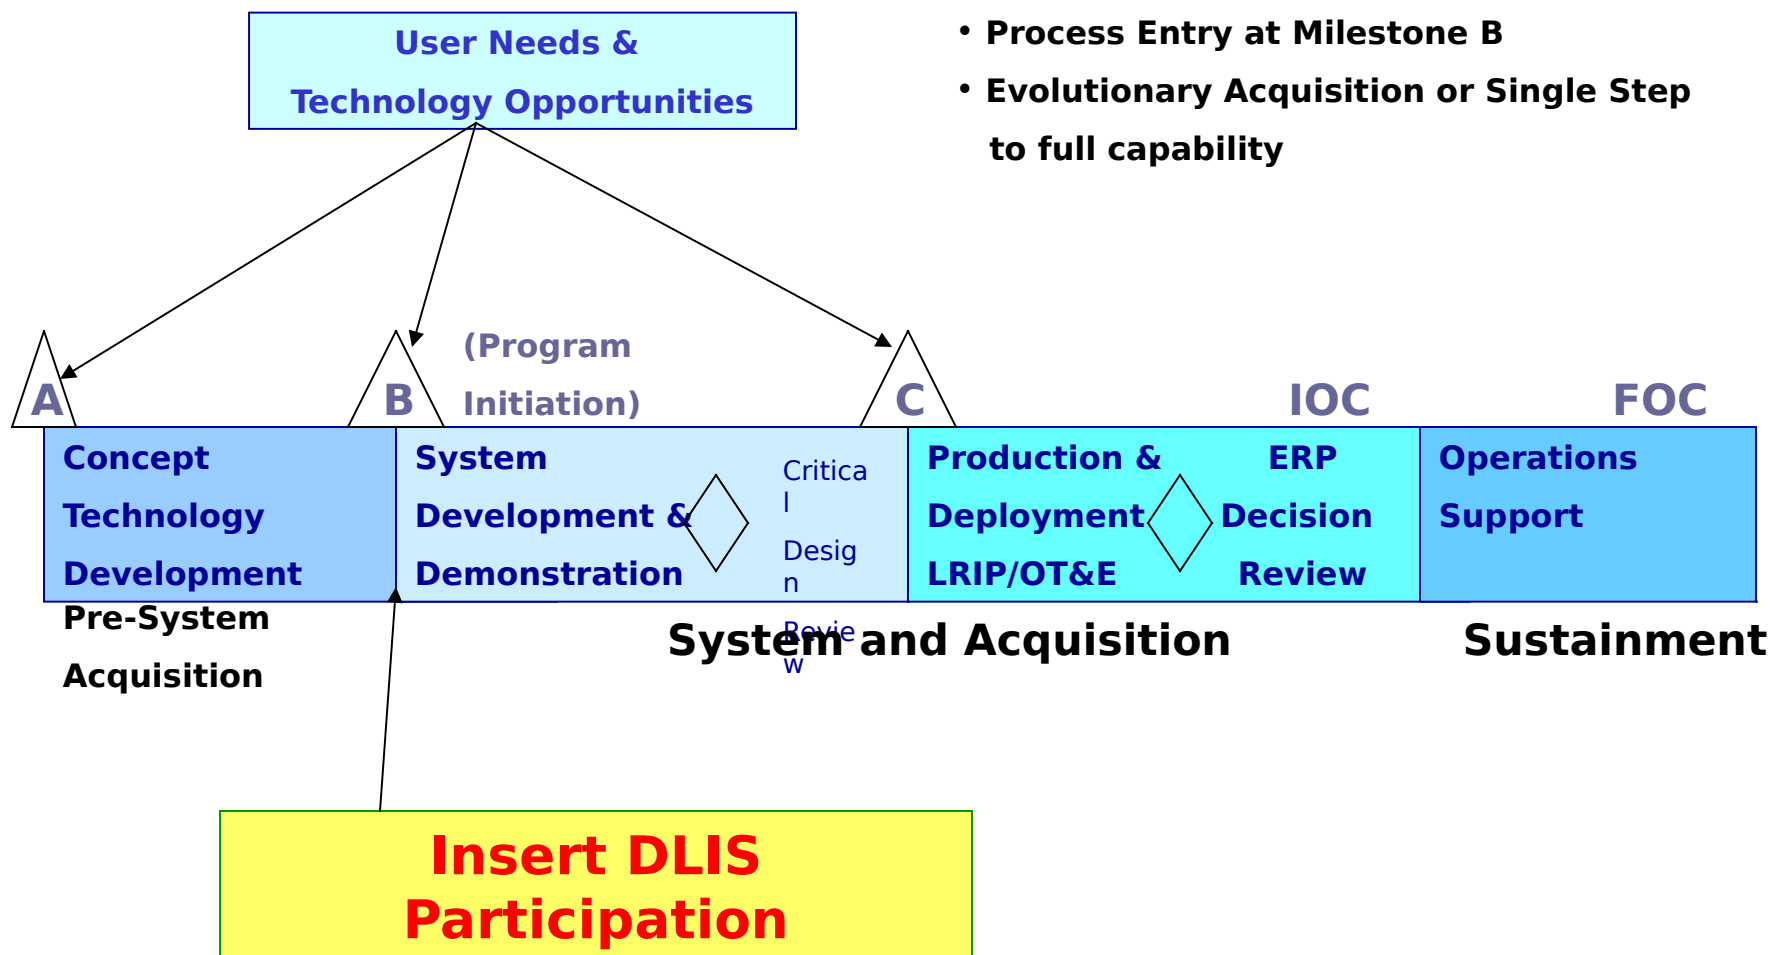

DLA Services

- ❑ **The Defense Logistics Agency (DLA) is a Combat Support Agency responsible for providing the Military Services with a broad range of logistics support**
 - **Weapon System**
 - ❖ **Development**
 - ❖ **Deployment**
 - ❖ **Maintenance**
 - ❖ **Reset/Recapitalization**
 - ❖ **Disposal**
- ❑ **DLA directly contributes to the war fighting readiness and sustainability of U.S. forces**
 - **“around the clock - around the world”**
- ❑ **Your Cost for DLIS Services**
 - **Provided under Service Level Billing**
 - **No additional costs to your program**

The 5000 Model

Future Under PBL?

DLA NSN 1

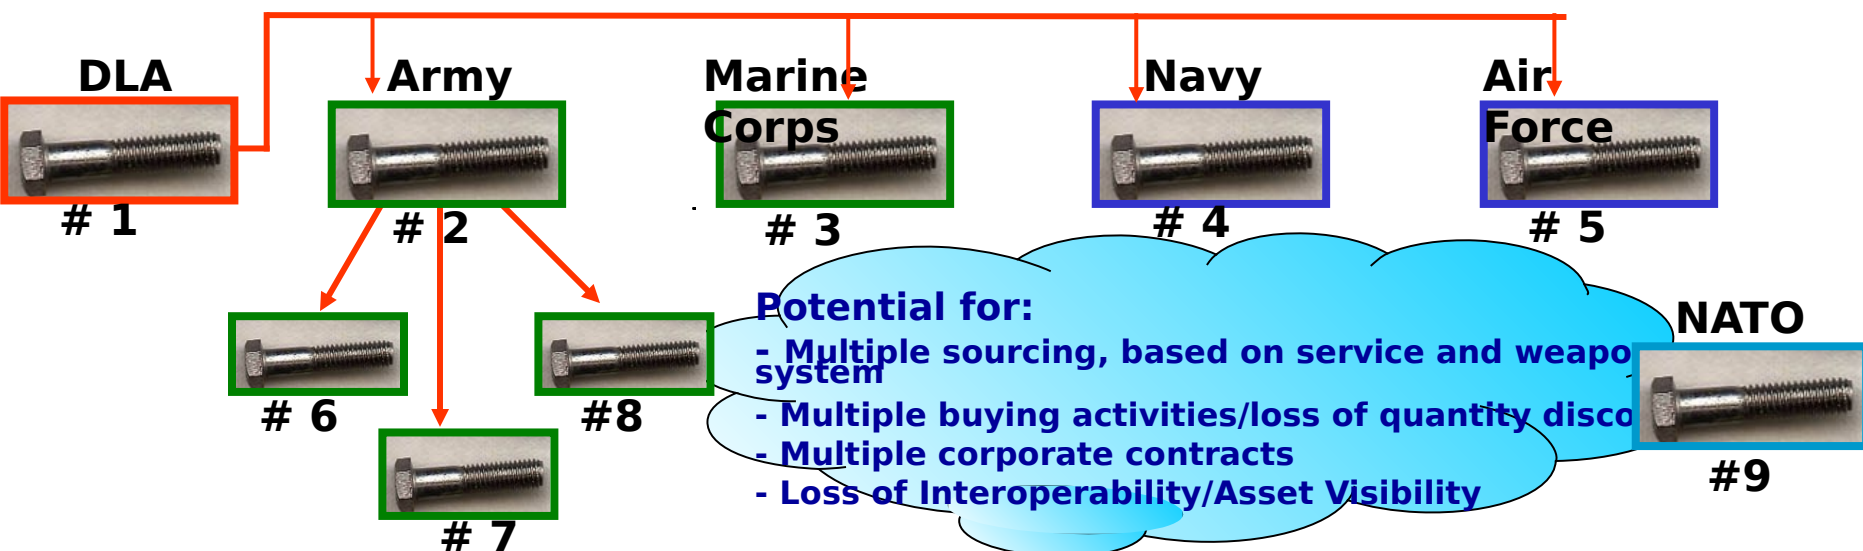

TODAY

**ONE ITEM OF SUPPLY
SINGLE MANAGER
SINGLE NSN**

**Each weapon system
uses their own
logistics "language"
WWII - déjà vu all over
again**

**POSSIBILITY UNDER
CONTRACTOR LOGISTICS SUPPORT**
Same item, bought many times

Service CLS Initiatives

Considerations for DLA Role/Support

☐ Minimum considerations:

- Use DLA unique consumable inventory before contractor purchases/supplies unique consumable parts.
- Authorize DLA ICPs as a source of supply for consumable parts in CLS contracts

☐ DLA may be able to tailor consumable item support for specific weapon systems working with Service/CLS contractor

DLA PBL POC is Kathy McGuire, HQ DLA (J-4)

703-767-1243

Provisioning Issues

- ❑ **Pre-Conference Actions**
- ❑ **Integrated Provisioning Data Support Process (IPDSP)**
- ❑ **Conferences**
 - **Guidance**
 - **Start of Work**
 - **Provisioning**
 - **Synchronization/Resolution/Reconciliation/RESET**
 - ❖ M9ACE
 - ❖ Oshkosh Truck Corporation
 - **Post Provisioning**

Development to Deployment

❑ Transition to Production/Deployment

➤ Guidance Conference

➤ Type of Contract

- ❖ Contractor Logistics Support (CLS)
- ❖ Direct Vendor Delivery (DVD)
- ❖ Organic

➤ Considerations

- ❖ Performance Based Logistics
- ❖ ACAT I or II

❑ Provisioning Conferences

- Pre-Conference Actions
- Conference Actions
- Post-Conference Actions

❑ NSN Assignment

Guidance Conference

❑ Identification of requirements for cataloging, such as receipt of provisioning data and LSA036 30 days prior to conference

- Allows DLIS to provide more complete and accurate data
- Spreadsheet Development with hyperlinks to all screenings, tech data, CAGE data, Item Name definitions, Item Name Codes, etc.

❑ Determination as to provided media for technical data, i.e. hard copy drawings, DVD, contractors website access, etc.

❑ Provide contractor with CCR information regarding prescreening requirements and results

- Pre-screening through the Federal Logistics Information Service
- Report provided in format and media specified by contractor

Start of Work Conference

☐ Typically performed prior to signing initial contract

☐ Submission of contract wording to ensure technical data is provided for cataloging purposes

☐ Provide contractor with information regarding registration in Central Contractor Registry and benefits

☐ Assistance with determination of “type of support”

- Organic
- Contractor Logistics Support
- Direct Vendor Delivery
- Performance Based Logistics
- Combination

Supported Provisioning Conferences

☐ **TACOM@Warren**

- HMMWV
- Stryker Family of Combat Vehicles
- ASV
- Dry Support Bridge/Improved Ribbon Bridge
- RTCH
- Logistic Support Vessel
- Water Quality Analysis Set - Purification (WQAS-P)
- HIMARS
- HEMTT
- Trailer, M105A3
- M915A3 Truck
- Family Medium Tactical Vehicle Group
- Modular Based Petroleum Lab
- Forward Repair System

☐ **CECOM**

- Phoenix Satellite
- Rigid Wall Shelter

☐ **AMCOM**

- UH-60 Helicopter Crashworthy External Fuel Tanks
- Sentinel Radar System
- LOSAT Missile
- CH-47 Hydraulic Purifier
- CH-47 Ballistic Protective System

☐ **TACOM@Rock Island and JMC**

- Bradley Main Battle Tank
- DSESTS

☐ **SBCCOM**

- LLADS
- Containerized Kitchen
- Containerized Laundry
- Containerized Latrines

Post Provisioning

☐ **Post-Conference Actions**

- If tech data is available and complete, DLIS attendees will bring it back for use by the catalogers assigned to process the SSRs, eliminating the need for packaging and mailing
- Post-Provisioning conference spreadsheet is prepared by PLISN, with FSC, Item Name, CAGE Code, part number, and ICP and provided to the provisioner to facilitate SSR submission
- Completed tech data is sent to our Central Data Library for screening into the drawing database
 - ❖ **May be returned to the customer, if required**
 - ❖ **Add tech data info**

☐ **ASynchronization/Resolution/Reconciliation Conferences**

- Verification and validation of data
- ID inaccuracies on existing NSNs

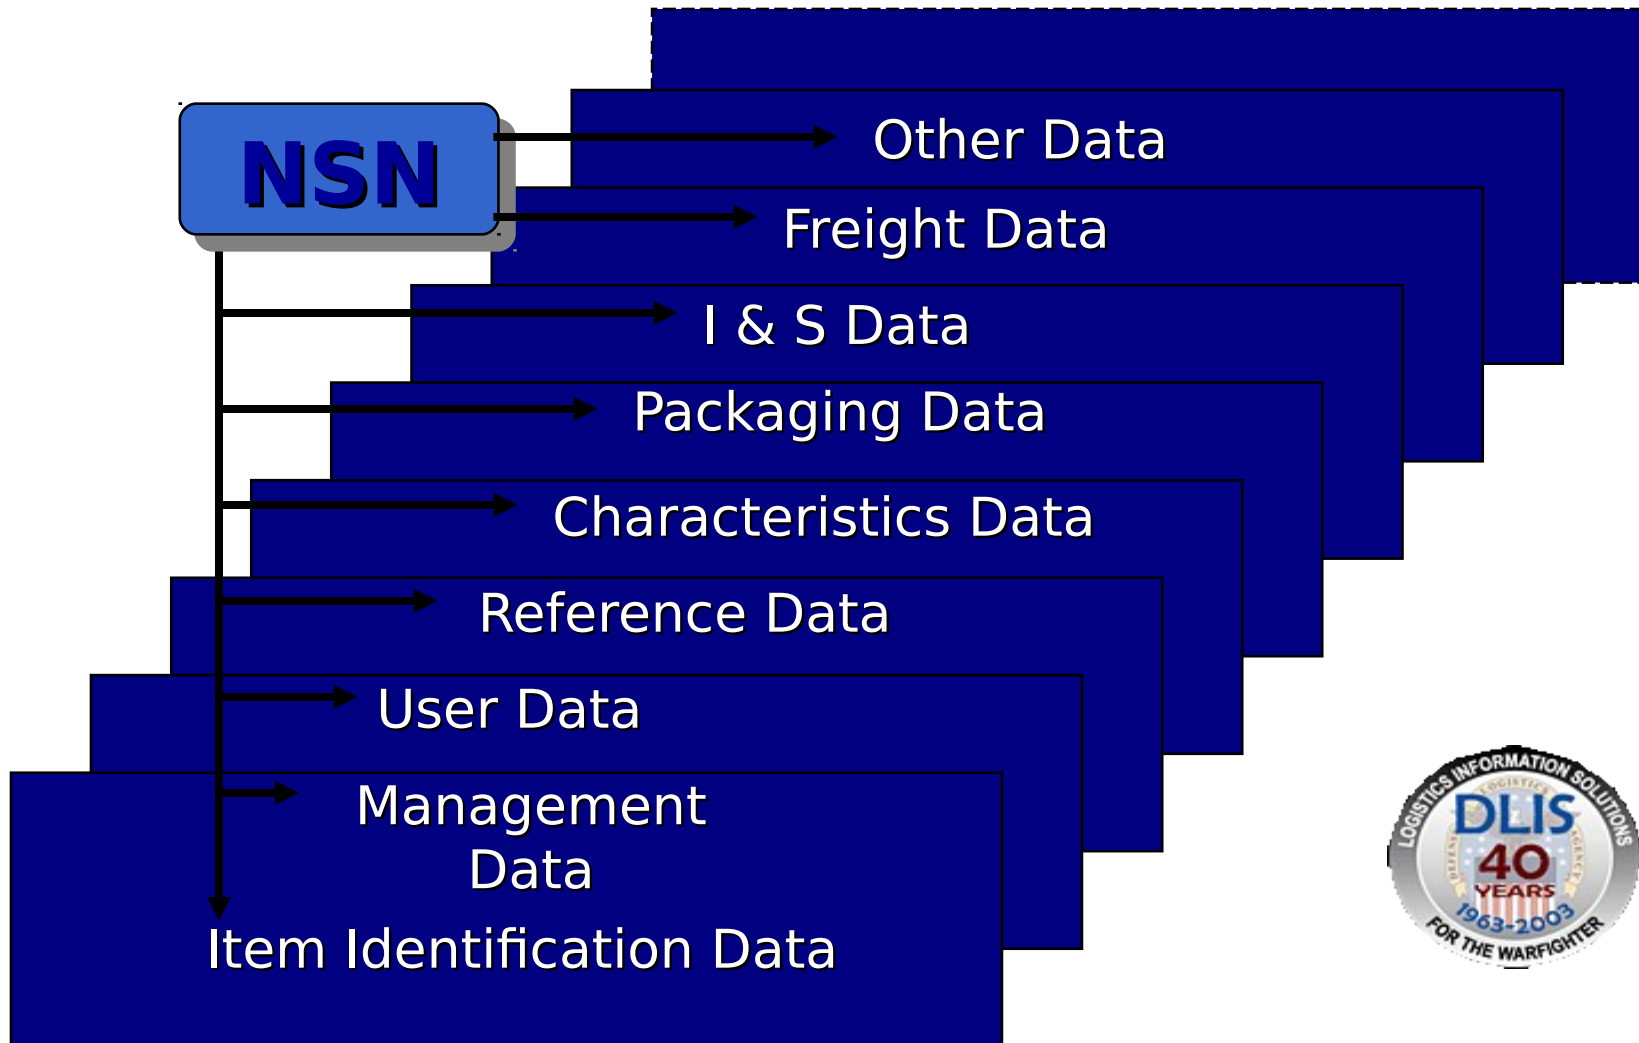

DLIS Capabilities and Services

- ❑ **National Stock Number (NSN) Based**
 - **Characteristic Search**
 - **Contractor Registration**
 - **Provisioning Support**
 - **NSN Assignment**
 - **Maintenance of NSN Data**
 - **Technical Data Review and Validation**
 - **Customer Support**
 - **Logistic Tools and Training**

The Federal Catalog

Characteristic Search

Development of new weapon systems

- Identification of required items by form, fit, and function
- Federal Logistics Information System (FLIS) search for required items

Electronic Equipment

- Emphasis on development and/or upgrade of electronic systems
 - ❖ Mapping
 - ❖ Countermeasures
 - ❖ Fire Control
 - ❖ IFF
 - ❖ GPS
- Can be searched by electrical requirements, such as:
 - ❖ Pulse
 - ❖ Phase
 - ❖ Ohms
 - ❖ Frequency Rating
 - ❖ Power Rating
 - ❖ Decibels

Contractor Registration & Performance

- ❑ Contractor information website is: WWW.CCR.GOV
 - Advantages For Military Services
 - Benefits for Contractors
- ❑ Contractor Performance
 - Providing Information for Best Value Awards
 - Past Performance Information Retrieval System (PPIRS) www.ppirs.gov/
 - Performance assessment reports received from the following Federal performance information collection systems:
 - ❖ Contractor Performance System (CPS)
 - ❖ Past Performance Data Base (PPDB)
 - ❖ Past Performance Information Management System (PPIMS)
 - ❖ Construction Contractor Appraisal Support System (CCASS)
 - ❖ Contractor Performance Assessment Reporting System (CPARS)
- ❑ PSMAT Provisioning Screening Master Address Table and Provisioning Screening Results
 - Listing of authorized contractors with government sponsorship
 - Sponsoring service responsibility
 - Registration and directions are located at www.dlis.dla.mil, Forms & Pubs, FLIS Procedures Manual, DoD 4100.39-M, Volume 7, Chapter 2
 - Pre-Screening Information
 - Provisioning Screening Users Guide

NSN Assignment

☐ SSR

- Submitted through CCSS/LMP for NSN assignment on DLA managed items
- Preferred Method

☐ For fielding and deployment, 85% of system equipment has to be stocklisted

- DLIS can provide NSNs within 24 hours for accelerated fielding requirements
- Requests can be sent in via e-mail, telephone, fax, etc.
 - ❖ Normal data for stocklist action is still required
- Customer will be notified as soon as NSN has been assigned
- Normal processing requirements in the Army system will have to be completed in order for DLA to maintain stock and keep the NSN active
- Must be coordinated through MSC Liaison Office and DLIS for large numbers of items

☐ Emergency

- Used for Army managed items for which there is a need for an NSN within 24 hours
 - ❖ Must be approved/submitted through MSC Liaison Office
- For DLA Managed Items, requests will be submitted to J6B

CCA.DLIS.DLA.MIL

Maintenance of NSN Data

- ☐ **Applies to Army Managed Items as well as those used by the Army, but managed by DLA**
- ☐ **Characteristic description, based on available technical data, is updated and revised as equipment and data is modified or as data becomes available**
- ☐ **Accurate recording of all identifying part numbers**
 - **Military Standard**
 - **Joint Electronic Type Designation System**
 - **Source Control**
- ☐ **Updating of logistics information, as required**
 - **Request from Item Manager**
 - **Manufacturer goes out of business or sells product line resulting in changes to CAGE Codes**
 - **Canceled items are still required and need to be re-instated**

Technical Data Requirements

☐ Quality of Logistics Information

- Characteristic Search
- Duplicate Parts
- Visibility of Vendors
- Item Name Development
- Identification of Replacements
- Next Higher Assembly/End Item Information
- Verification of CAGE Code
- Validation of Part Number and CAGE Code
- Identification of Drawing Number vs Part Number
- Electronic Format

☐ Technical Data Impact on Performance Based Logistics

- Enduring government requirement for technical data
- Required for:
 - Joint and Coalition Interoperability
 - Potential Lost Sales for DLA
 - Identity Crisis for Common Consumables
 - Multiple Supply Chains
 - International Implications
 - Contractor Going Out of Business
 - End of CLS/DVD Contract

☐ Asset Visibility Blind Spot

Submittal of Requests

☐ **Cataloging work requests may be submitted via:**

➤ **Mail**

➤ **E-Mail**

➤ **FAX**

➤ **On-line request form**

❖ **On-Line:** link from Army Cataloging home page:

<http://www.dlis.dla.mil/Army>

then click on “Submit a Cataloging Work Request”

DLIS Support to the War Fighter

❑ Who are we?

- History
- Logistics
- Genetic Code

❑ DLIS Mission

❑ Customer Support

- Warfighter
- Direct Support
- Cataloging
- Assigned Responsibilities
- Products & Services

History

- ❑ 1947 Congressional concerns over WWII supply and acquisition issues generated hearings and a Blue Ribbon Commission
- ❑ 1952 Public Law 82-436 (Defense Cataloging and Standardization Act) was passed that standardized cataloging and acquisition processes to eliminate procurement of duplicate items...DLIS was created
- ❑ 1997 Congress determined all DOD Cataloging would be consolidated under DLA at DLIS in Battle Creek, MI
- ❑ Today DLIS continues to build on its 52+ years of cataloging experience

The Language Of Logistics

The Federal Cataloging System (FCS)...

- ❑ Is the world's largest logistics data base with
 - 7.4M active U.S items and 8M active NATO items
 - 7.2M inactive items
 - 30M reference numbers registered
 - 30B descriptors of those items
 - 1M registered manufacturers
- ❑ Has over 52 years of use and refinement
- ❑ Is the basis for the NATO Codification System
- ❑ Establishes the international standard structure
- ❑ Is the basis for most item-level logistics decisions
- ❑ Is used across the logistics life of every DOD item

DEFENSE SUPPLY EXPERT

DoD E-Mall

Mission:

Striving to become the single entry point for purchasers to find and acquire off-the-shelf , finished goods and services from the commercial marketplace and government sources.

The EMALL solution set includes:

Broadest Possible Range of Supplies
Cross Catalog Shopping
Distributed Architecture
Payment Options

Advanced Searching Capabilities
Detailed Item Descriptions
Shipping Options

**POINT, CLICK, AND
SHIP**

Order Management
Easy Re-ordering
Niche Market Customization

Virtual Call Center

1-877-DLA-CALL

☐ Battle Creek Customer Contact Center (BCCCC)

- Staffed 24 hours a day, 7 days a week, including Government holidays
- Dedicated, knowledgeable agents provide real time answers to your real world logistics needs
- Only center answering DLA enterprise calls
- Handling over 55% total calls daily
- Averages 21,000-23,000 calls per month

FEDLOG

- ☐ 7 million NSNs-12 million Part Numbers
- ☐ Retrieves information from the FLIS database and the Army Master Data File
- ☐ 35,000 subscribers
- ☐ No internet access required
- ☐ Batch processing
- ☐ Data can be import to Excel, Access or Word
- ☐ Website: www.dlis.dla.mil
 - Products

Joint Total Asset Visibility (JTAV)

❑ MISSION

- Ensure that a Total Asset Visibility (TAV) capability is provided to the Combatant Commanders (COCOMs), Joint Task Force (JTF) Commanders, the Services, and other DoD Organizations
- Ensure that AV requirements support the Global Combat Support System (GCSS)

❑ Inventory Data

- Displays worldwide inventory status of one or more items across all services
- Can perform 10 different inventory queries

❑ Requisition Data

- Displays the most current requisition status by document number
- Displays status of a due-in to a specific unit

❑ Transportation Data

- Displays shipment status of a document or TCN
- Find items being shipped (NSN or DODIC)
- Track shipments in several ways

Military Engineering Data Asset Locator System (MEDALS)

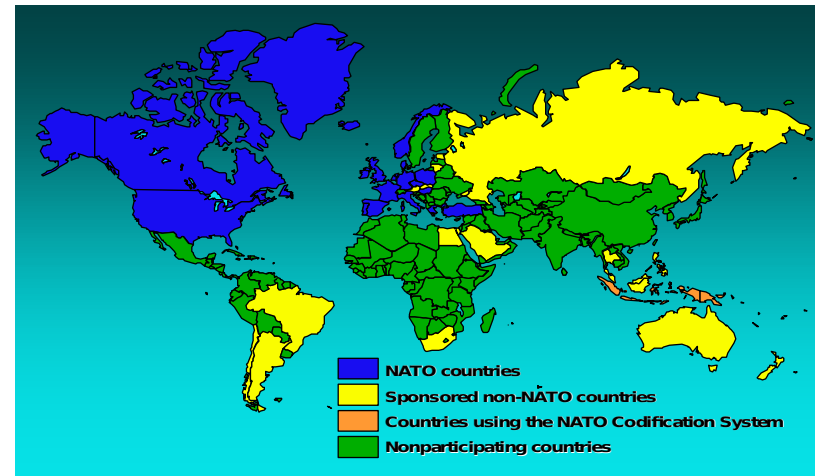

- ❑ DoD central engineering data indexing authority
- ❑ Associated with Joint Engineering Data Management Information and Control Systems (JEDMICS) and Product Data Management (PDM) systems
- ❑ Accessed through the World Wide Web
 - <https://www.dlis.dla.mil/medals/>
- ❑ Supplies drawing location(s) information to customers
- ❑ Provides repository location of documents, point of contact and associated data

International Cataloging

- ❑ **Adoption of NATO Codification System grows rapidly**
- ❑ **DLIS manages international standards and represents the US on NATO and Pacific groups**
- ❑ **A significant US - NATO link**
 - **47% of active US NSNs are from NATO users**
 - **30% of all new NSNs are from NATO countries**
- ❑ **Other DLIS services provided**
 - **Foreign Military Sales (FMS)**
 - **NCB College**
 - **In-Theater Seminars**
 - **WEBLINK International**
 - **New multilingual classification and naming publication**

Ongoing Support & Reachback

❑ Tailored Extracts

- Specific Data Pulls
- Data Cleansing *

❑ Recapitalization

- M9ACE Research
 - ❖ Verified contractors/vendors and IMs
 - ❖ Part Number Validation
- Synchronization Reviews
 - ❖ Oshkosh Truck Corporation

Data Cleansing Assistance

- ❑ **Imperative to have clean data migrate from legacy system to new system**

- ❑ **Total Item Review (TIR) Capability**

- Identify inaccuracies between 3 systems
- Provide results in spreadsheet format

- ❑ **Accuracy of Data**

- Valid data decision rests with Army

- ❑ **Ability to perform collaboration**

- ❑ **Ability to process mass file corrections**

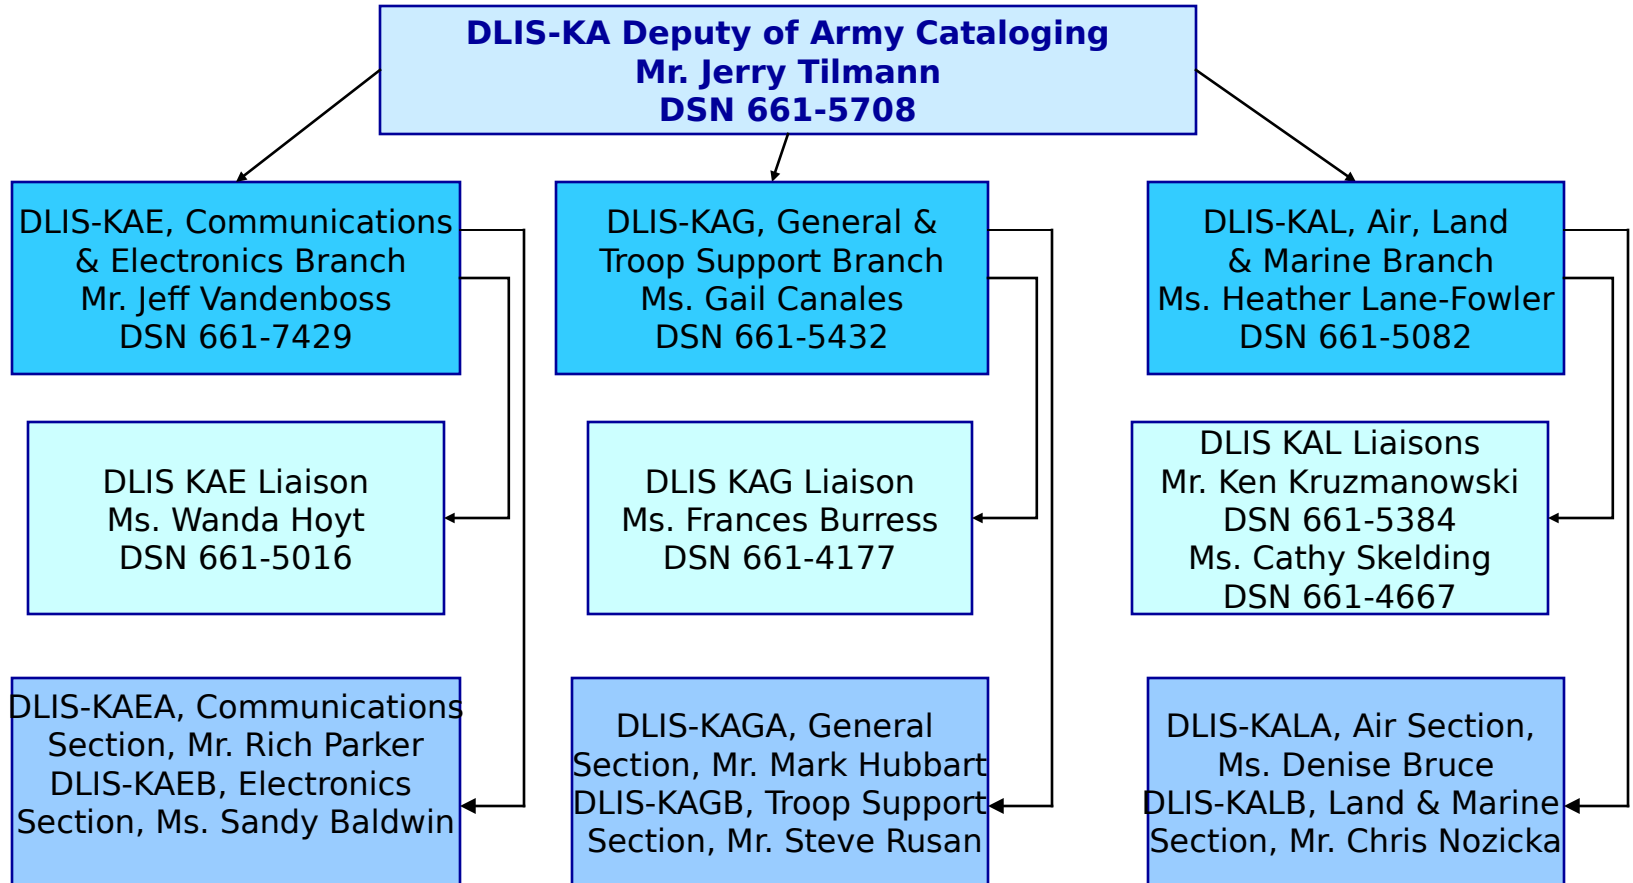

- ❑ **Quality Database (QDB)**

- **Tracking Mechanism**

- ❖ Workload Management Systems
- ❖ Provides visibility of resource and workload assignments for each customer
- ❖ Users Read/Write capability based upon job description
- ❖ Reports provide workload statistics by Branch, Section or employee for each MSC
- ❖ Customers are capable of reviewing status through DLIS Webpage
- ❖ Information is vital in keeping MSCs up-to-date on their workload and for reimbursement purposes
